The Embassy of Italy
Canberra

9th Italian Language Week

Art, Science and Technology

Italy: Research and Technology in Space Science

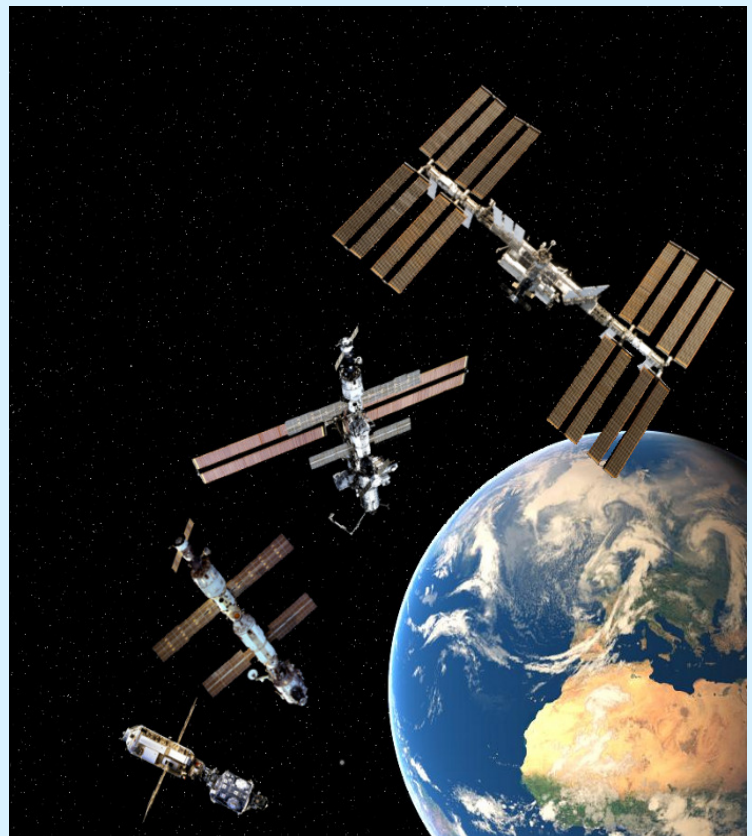

In collaboration with the Australian Academy of Science

Wednesday 21st October, 6.30 pm, The Shine Dome, Gordon Street, Acton (ACT). Refreshments will be served from 6.30 till 7 pm.

Introduced by Oscar Moze, Scientific Attaché at the Embassy of Italy, this event will begin with two video presentations which will briefly highlight some recent achievements of Italy in space science and technology.

The video presentations will be followed by two talks. Australia's future place in space will be discussed by Prof. Steven Freeland, University of Western Sydney. The involvement of Australian industry in Space and Astronomy will be discussed by Brett Biddington, Chairman of the Australia Telescope Steering Committee and Chairman of the Australian Space Industry Chamber of Commerce.
