

Ahead of the game

Biomedical science education into the 21st century

Monday 12th December 2011

Shine Dome, Australian Academy of Science, Canberra

The National Committee for Biomedical Sciences is holding this Forum to identify key issues and challenges facing us as biomedical science educators in the 21st century and to form a national collaborative leadership network for the biomedical sciences.

This is an important opportunity for you to play an active role and have a voice in shaping strategies for future projects, funding and government policy.

Further details on the Forum, including final program, registration form and RSVP arrangements will be posted at www.science.org.au/natcoms/nc-biomedical.html.

Enquiries: meaghan.obrien@science.org.au

Opening address

Professor Ian Chubb (TBC)
Chief Scientist
