

Lab notes: What's this all about?

Name: _____ **Date:** _____

Imagine that you are a scientist who works in a research laboratory. Your team has been given the task of completing an investigation that was left incomplete by a team of scientists who have been assigned to a top-secret investigation. Due to security restrictions, the original team cannot be contacted. The only details available are contained in the following email:

Dear Team,

We had to rush off but we are leaving this circuit problem in your capable hands. Everything you need to complete the investigation can be found in this photograph, the 'Scientists' material box' and the 'Essentials for the investigation' equipment.

Good luck!

Your research colleagues
