

# 2018 Australasian Early Career Researcher Network (AECURN) Queensland Symposium: **Transformation in Urban Environments**

Cutting-edge research from Early Career Urban Researchers on Transforming Cities

Day will include:

- A plenary from Future Earth Australia on their Urban Systems Transformation Initiative
- Presentations and discussions from top early career researchers
- A panel discussion on post-PhD careers
- Networking opportunities

The Symposium will foster professional development and enhance engagement through partnerships and dissemination of knowledge between new and more established academics to engage with the challenges of transformations facing urban research worldwide.

Inspired by the major transitions that are underway in a city renowned for its urban villages and breathtaking vistas, this multidisciplinary Symposium will bring together Early Career Researchers to discuss change and transformation in all aspects of the urban: physical, environmental, social, cultural, technological and political.

The day will start with a presentation from Future Earth Australia to set the scene. This will be followed by Early Career Researchers presenting their cutting-edge research and discussions between the panel and the audience. There will also be a panel discussion on careers, both in academia and beyond, with insights from successful ECRs from industry, research and teaching. Lunch and coffee will be provided, and there will be plenty of opportunities for networking and developing future collaborations.

**Saturday  
8 September 2018**

**8.30am - 4.00pm**

The Ship Inn, Cnr Stanley & Sidon Street

Southbank Parklands,  
Brisbane
